McGumption Mansion: The Solution

For use on Unix 2 course

Files

File 1

```
bash$ cd mcgfiles
bash$ crypt burma < file1
```

File 2

```
bash$ awk '{ print $47 }' major/key2
bash$ crypt casbah < file2
```

File 3

```
bash$ du -as . | sort -n
bash$ crypt stun < file3
```

File 4

```
bash$ major/getkey4 > /tmp/blah
bash$ diff /tmp/blah library/drac.txt
bash$ crypt massive < file4
```

File 5

```
bash$ egrep '$e.*d^' library/drac.txt
bash$ crypt wolf < file5
```

Files

File A

```
bash$ spell library/family.txt > /tmp/one
bash$ spell -b library/family.txt > /tmp/two
bash$ diff /tmp/one /tmp/two
bash$ crypt judgment < sigma/phi/fileA
```

File B

```
bash$ grep the library/body.txt | sed -n 198p
bash$ crypt stranger < theta/eta/fileB
```

File C

```
bash$ find . -exec grep -l duck {} \;
bash$ crypt ancient < theta/gamma/fileC
```

File X

```
bash$ crypt notorious < theta/epsilon/.x/fileX
```

File Z

```
bash$ find . -mtime +300 -exec ls {} \;
bash$ crypt edge < theta/kappa/.zodiac/fileZ
```

Final task

```
bash$ ls -b sigma/omega/ bash$ more sigma/omega/*
bash$ bc 3^4*3
bash$ major/failsafe 006243
```
